

## Pressure Maintenance Devices, Dry Pipe Systems

These pressure maintenance devices automatically maintain a predetermined air or nitrogen pressure in dry pipe sprinkler systems. Some devices may be used with a noncontinuous air supply which is capable of initially filling the system. Other systems require a continuous air or nitrogen supply. Unless noted otherwise in the listing, these air maintenance devices have a pressure rating of 175 psi (1205 kPa).

### Model D-2

Air Maintenance Device. Model D-2.
